## ...Colonial Life's Cancer Insurance

*The risk of developing cancer, unfortunately, is very real.*

In the U.S., men have a 1 in 2 lifetime risk of developing cancer, and for women the risk is 1 in 3.<sup>1</sup> As serious as the threat of cancer may be, new and improved medical treatments are being introduced, and studies are showing that regular screening tests can detect some cancers in the early stages.<sup>1</sup>

The five-year relative survival rate for screening-accessible cancers is about 86 percent.<sup>1</sup> If all Americans participated in regular cancer screenings, this rate could increase. But with high technology come high costs. The American Cancer Society reports that cancer costs Americans more than \$206 billion annually.<sup>1</sup> And much of that amount is considered indirect or hidden costs not covered by major medical plans.

Cancer coverage from Colonial Life offers the protection you need to concentrate on what is most important — your care.

### Features of Colonial Life's Cancer Insurance:

- 1 Pays regardless of any other insurance you have with other insurance companies.
- 2 Provides a cancer screening benefit that you can use even if you are never diagnosed with cancer.
- 3 Guaranteed renewable as long as premiums are paid when due.
- 4 Benefits paid directly to you unless you specify otherwise.
- 5 You can take your coverage with you even if you change jobs or leave your employer.
- 6 Flexible coverage options for employees and their families.

### Indirect Costs You Pay:
